Management REPORT

No. 148

LATEST DEPARTMENT to set a new high in production is the Kraft Mill. In congratulating the crews in a memo to Supt. L. D. McGlothlin and assistant, P. M. Wilkie, Mr. Gallaway noted: "... the 14,424 tons of kraft made during October was a new monthly production record, the old record of 14,387 tons having been made in August 1954."

THIRD AND FOURTH YEAR paper school classes will not meet tonight (Nov. 17). First year class will meet Tuesday, Nov. 22 to hear J. V. Savage, sulfite mill superintendent, discuss sulfite operations. Jan Haugerod, sulfite and bleach plant superintendent, West Linn division, will speak on "Acid Making." Second year class will hear Dr. W. W. Moyer, director of research, speak Wednesday evening, Nov. 23.

C. I. KNAPP, supervisor, No. 2 finishing room, is new chairman of the finishing and converting superintendents of Northwest mills. Election was held last week when 22 delegates met in Camas. Mill management was hosts to the group at lunch, dinner, and a mill tour.

"WASHINGTON IS THE STATE
WITH THE

HALF-WOODEN DOLLAR"

"Half of every dollar earned in the State of Washington comes from trees. Let's protect our dollars by developing and preserving our forests."

This statement was the theme of the Clark county Keep Washington Green committee which met at the Inn Tuesday evening. The 36 men present heard George Beckim, fire warden for the Vancouver district, emphasize reforestation of the Yacolt burn and the development of farmers' woodlots. V. C. Gault, CZ safety supervisor and director of the southwest Washington region of KWG, was master of ceremonies. Local members Dick Lawton and Sam Runyan represented mill management as hosts for the evening.

THE 20TH DISABLING INJURY for the year occurred at the beaters Wednesday ending a 4½ year accident-free period for that department. G. E. Wright, 25-year man, was coming out of the beaters after washing up when his feet slipped on the wet floor. His fall resulted in a compression fracture of two vertebrae in his back.

TOM CARRAS, machine tender on No. 3, suffered a fatal heart attack Saturday morning only 15 minutes after coming to work at 8:00. He had suffered from a heart condition during the last several years. He received his 40-year service award at the dinner last spring. Services were held Tuesday at Stollers chapel.

THE NEXT SERVICE AWARD DINNER has been set for Thursday, January 26, at which time G. J. Ticoulat, CZ vice president, general sales, will present the 166 awards.

SO MANY REQUESTS have come recently for weather information that we know you'll be glad that the instruments are working again. Temperatures reported Tuesday gave a low of 10° and a high of 31°. River level Tuesday was 7.3 ft., a year ago, 5.8 ft.

The biggest, most dominant, and consistent
ADVERTISING AND MERCHANDISING PROGRAM
on HOUSEHOLD PAPER PRODUCTS
ever to appear in the West!

The above is the description of the new advertising program being developed by CZ sales department. The November 20 issue of 12 Sunday supplements will carry 3/5 page ads featuring Chiffon tissue. In our area, these ads will be seen in This Week and American Weekly. Other widely distributed displays in December include 17 additional "Angel" ads and five full-color magazine pages.

A RECENT LETTER from the International Correspondence Schools to Reg Haight, training supervisor, commends our people for the interest they are showing in higher education. They especially mention the ICS note in the September 1 Management Report by saying,

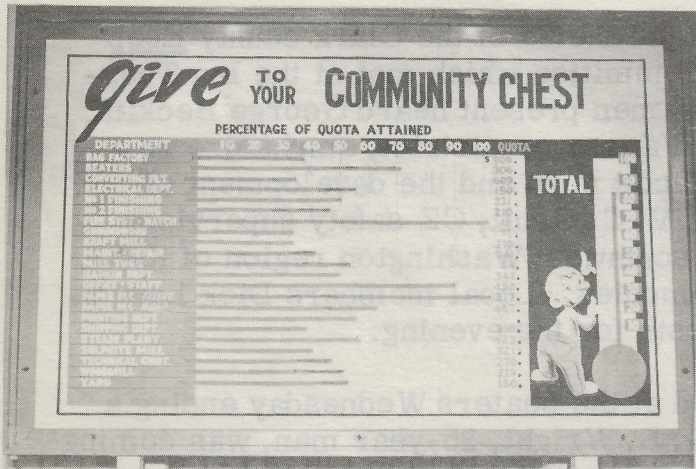

"This item has been filed for future reference concerning the effort made by one of the nation's leading firms to assist employees who are interested in further study to improve themselves in their present work and to ready themselves for advancement."

Vern Anderson, training assistant, reports that 14 employees, out of 37 who made serious inquiries, have signed up since lower rates were arranged with ICS. Electrical, chemical, and mechanical engineering courses and correlated subjects are the most popular. Vern invites others interested to drop in for new pamphlets just received.

COMMUNITY CHEST reports are now practically complete with only a few pledges yet to come in. While the board (illustrated) does not give final information, it shows the relative standings of the departments. A special salute goes to the Papermakers - tissue, and Firemen and Watchmen who achieved their quotas and to the Office, a good runner-up. General chairman Dick Lawton and plant chairman Bill Sampson say a grateful "Thank You" in behalf of the Chest organizations to all contributors. (Incidentally, two people gave Bill extra dimes last week to make an even total. Their goodwill helped mightily to pep Bill up to finish the job.)
